## CAINVILLE CENTER

Cainville Center, July 20.—A very large crowd gathered at the Magnolia Hall Friday night to bid farewell to Arthur Wells and George Flinneran, who left Wednesday for Camp Grant. The boys were each given a good purse of money from those present, besides comfort kits and sweaters which were made by the Mother's Club of North Magnolia. A very enthusiastic patriotic address was given by Bill Flinneran.

Miss Maudie Weaver of Evansville, has been engaged to teach the Cainville School for coming year.

Friday is the order of the day in this community.

Mrs. Warren Andrew spent Friday afternoon in Janesville.

Nellie Gardner returned from Chicago Friday night.

The canning club will meet this afternoon at the home of Marion Andrew.

They may be reached either at the Chamber of Commerce or at the Farm Labor Agency at the Gazette, No. 150.

W. J. Carmen, with his two sons, all experienced farmers, want a good location together. Can give references. Address Card: Mrs. Jas. McNeiles, R. 1, Janesville.

## CONGREGATIONALISTS VOTE TO UNITE WITH PRESBYTERIAN CHURCH

**VOTE FOR FEDERATION MADE  
UNANIMOUS—PERMANENT  
CHURCH COMMITTEE  
APPOINTED**

## WILL DISCUSS PLANS.

Newly Appointed Committee Will  
Work With Presbyterian Church  
Committee On Matter of  
Uniting

A unanimous vote for federation of church interests with the Presbyterian church society, was given at a meeting of the members of the Congregational church on Saturday.

The formal vote required 116 for federation, with five against it. As the vote was carried unanimously, the question was carried unanimously.

By request of the clerk, Mr. J. M. Whitehead, the voting was confined entirely to the question of federation or not the other parts of the resolution to be considered separately. As the results were known and against federation, the other interests involved had been discussed fully at several meetings held recently by the society, there was no open discussion of the problem by those present. They had been asked to come to the meeting prepared to vote, and were evidently ready to do so.

The meeting was one that had been adjourned from that of two weeks ago, and the same moderator, Mr. J. A. Craig, presided, with the clerk of the society, Mr. Whitehead, as secretary.

On motion of Mr. McGowan, the clerk was asked to read again the resolutions of the federation presented at the third meeting.

The points were briefly: 1st. The Sunday meetings and the mid-week prayer meetings to be held together.

2nd. The women's organizations to be separate unless they wished to affiliate.

3rd. The Benevolences of each organization to be kept separate for the present.

4th. A union meeting of the two churches, to make plans for running the affairs of the united congregation, planning the budget, music, ushers, and so forth.

5th. The organizations of each society to be kept intact.

6th. The pastor of the united societies, to receive and dismiss members for both organizations.

7th. The pastor to be the Presbyterians, and to be the pastor of the allied congregations and the Congregationalists to furnish the church edifice and equipment.

In a brief, concise way, Mr. Whitehead explained the various motives governing the allied committee, who had prepared the resolutions. He said that they considered it undesirable to fix any limit on the union, that it was felt that when the situation had brought greater confidence and affection had been engendered by co-operation, perhaps a closer union might be thought desirable, at a later time. Many families had already expressed themselves in favor of this idea at once, but larger interests must be considered. Members were affiliated through various organizations, with world wide societies, and must ruffle those pledges made by them toward these organizations. Mr. Whitehead emphasized that missionary boards of different church organizations were already thinking of consolidation. That the foreign work was mapped out so that there should be no overlapping of interests.

The American Board of Foreign Missions had grasped the idea of ridding itself of the Presbyterians and the Congregationalists.

Applicants for the U. S. navy can report to Postmaster, J. J. Cunningham, and a recruiting agent will be there for men who desire to enlist at any time.

## PLEDGES FOR FARM WORKERS INCREASE

Total of Forty-Four Pledges of Vol-  
unteers in Farm Help Defense  
League Turned in to Date.

A total of forty-four pledge cards from volunteers in the Farm Help Defense League turned in by members of the Chamber of Commerce offices by noon to date. The number enrolling in this district's Farm Help Defense league has grown steadily since the movement was launched last Thursday. The pledge cards already turned in are the result of canvassing by only a small number of men, and when all reports have been made by workers a big labor supply is expected to be available.

Many men who have signed up for farm work offer their services for a short period each day. Others are able to work only on certain days in the week. Some offer to bring team or horses to site in harvesting or threshing and some have cars to furnish transportation to workers.

The cooperation of the farmers is all that is needed now to make the undertaking a success. Several calls for help have already been received at the Chamber of Commerce offices, where farmers should apply for the help of these volunteer workers.

With warm weather coming on the grain will ripen rapidly and farmers will soon be in need of considerable extra help to harvest their crops.

Apple Leafhopper Attacks Fields of  
South Wisconsin and Northern  
Illinois.

Thousands of acres of early potatoes in southern Wisconsin are turning brown and drying up with the result of the attack of a multitude of little green leafhoppers.

State entomologist of the Wisconsin Department of Agriculture at Madison has just made an inspection at Monroe, Janesville, Elkhorn and Lake Geneva. He reports the trouble as being widespread in this region, extending south into Illinois and as far north as Madison and Beloit.

Only the early potatoes have suffered so far, but the broad of leafhoppers are now attacking wings and will probably fly to the late potatoes and beans doing damage there later.

In the worst fields the leaves have shriveled completely and died, leaving only the stalks green. These cannot be saved but where part of the leaves are still green, one spraying with "Black Leaf 40" or kerosene emulsion, will save them.

The young leafhoppers remain on the underside of the leaves so that in spraying the vines must be drawn over just before the spray strikes them or the little hoppers will not be killed.

Chief Champion designated Officers Gower and Wixom to watch Mosher.

He was located about 9 o'clock and for an hour he attempted to throw the two policemen off his trail. He was not acquainted with Officer Wixom, however, and in watching Gower he slipped the liquor to the soldier in the presence of Officer Wixom.

He was immediately taken into custody, and despite his many pleas that he was innocent he was locked up. A federal officer is expected in the city this afternoon to take him to Madison.

One after another they cut in Beloit, but they always confine the cutting to members of their own race.

Police Champion, this morning received another notice from the Beloit police, to be on the watch for Abe Wilkes, colored, who is wanted for cutting another negro in Beloit, on Sunday during an argument.

The message stated that Wilkes is a powerful, big man, and real black.

It is claimed that during an argument with another colored man, on Sunday, that he drew a knife and cut his opponent about the head and neck.

Another Group of Rock County Boys Will Serve Country On High Seas.

Enter Training Today.

Seven Rock county boys, left for Milwaukee today, to enter training for the U. S. Navy. The following are the seven who passed their examinations at the recruiting station, in Milwaukee, Saturday, and who will leave today: Charles F. Hager and Charles C. Delaney, both of this city; Philip Scholl, Milton Junction; George H. Master, Lima Center; William A. Canary, Footville; Klinard K. Roberts, Evansville.

Applicants for the U. S. navy can report to Postmaster, J. J. Cunningham, and a recruiting agent will be there for men who desire to enlist at any time.

CAME FROM A DRY  
TOWN; GETS 30 DAYS

They have come from Edgerton, Beloit, Rockford, Wausau and Stoughton to get a drink and now they are coming to Clinton, Ill. Goodwill of that place entered a plea of guilty to the charge of drunkenness in the municipal court this morning and Judge Maxfield, with his usual brusque handed him twenty-five dollars and cost of thirty days.

Judge Maxfield issued warning after warning to the man from dry town not to come to Janesville and get drunk but they have continued to come and at last the judge has stopped handing out warnings.

W. M. Land was the second offender to appear in court and on his plea of guilty to being drunk he was given a fine of nine dollars and cost of fifteen days.

The case of Fred Dean, who is charged with non-support was set for July 29th, at ten o'clock.

MINOR MUST PROVE HE IS  
BEFORE HE CAN ENTER ARMY

The act of Congress approved May 18, 1917, establishes the minimum age limit for voluntary enlistment in the United States Army at 18 years.

A circular letter recently issued by the Adjutant-General of the Army says:

"The large number of applicants received from parents and guardians for the discharge of minors under 18 years of age, inclosing satisfactory evidence of their fitness for service, indicates the necessity of more care on the part of the recruiting officers in order to avoid unnecessary expense to the government and annoyance to troops in the field in the subsequent discharge of such minors.

"Therefore no applicant under the registration age will be accepted for enlistment until he has proven to the complete satisfaction of the recruiting officer that he is of the age and has the physical condition of a man.

"It is for us that all are fighting. It is for us that they may fall. It is for us that the world may stand.

We must help the ones who need it. Help the ones across the foam. While they face the Huns in conflict.

When they go from us to roam, I would help the boys in khaki. I would help the boys in blue. Whether here or over yonder. All our lads, brave and true.

Some may be without a mother. Some may be without a father. Some may have no earthly loved one. Who will pray for them at home. But we here must be brother.

Or a sister to them all. It is for us that all are fighting. It is for us that they may fall. It is for us that the world may stand.

We may do our bit by writing cheering letters from our homes. That will give them strength to bear the many hardships across the foam. "Sacrifice" we hear them crying. While the bullets around them dance, I would do my sacrifice.

For the boys somewhere in France.

I will do my bit for those who need it. Do my bit till Old Glory conquers. I will come the joyful tidings "Peace," do my bit till my hands grow weary. Do my bit till the war is done.

Do my bit till the Kaiser whispers, "Boys the United States has won."

Evansville, July 21.—In his four minute talk Saturday evening at Methodist theater, E. M. Richmond made a stirring appeal to the ladies to do more than at any time before.

A thousand pairs of socks are wanted for the month, along with more surgical dressings and garments. Do not stop working because the weather is hot. The boys haven't stopped working because the weather is hot. The call goes from headquarters, "Can't you do more?"

About 6 o'clock Saturday evening the alarm of fire was sounded and heavy black smoke and flames were seen issuing from Davis Bros. garage on Main street. For a time the building seemed doomed as well as adjoining ones engulfed by the fire department.

The fire was soon under control, not however, until the building was badly burned on the inside and two cars badly burned. The fire started in the vulcanizing room upstairs and spread rapidly. Davis Bros. are to be commended for their coolness in getting the cars out while the rest of the building was burning.

Miss Stella Major has returned to her duties in one of the Janesville banks after a week's vacation.

Byron Campbell was reported more comfortable Saturday.

STILL UNSHEATHED.

Nearly a hundred and forty years ago Frederick the Great of Prussia, then but a kingdom of Europe, sent a sword to General Washington as a token of his appreciation of the Yankee "Platation General," who had whipped the soldiers of his brother monarch, King George of England, and the hirelings which the Prince of Hesse had furnished him to aid in the subjection of his rebellious colonies. Today that sword is being returned to Prussia by the hundreds odd thousand American soldiers, but unsheathed, and could old Frederick look down—look up—for he was a dambnable old cuss—from his present abode, he would be astonished to learn that the great-grandchildren of the men who fought the revolution were waging a merciless war upon his descendants, and the sword he sent was still unsheathed and ready for active service.

Down at Camp Grant, Saturday, the commanding officer instructed his subordinates that the plea of "Kamerad" was not sufficient and that before they took a German prisoner they must demand he say "Surrender" in plain English. This keeping up traditions but slightly marring the early war talk that we were fighting the German system—not the German people. Apparently the powers that be have discovered it is the German people who actually make the war possible, so why wait for the call for "Surrender"—not "Kamerad"?

On the European battle front the American troops advance so far that an aeroplane must be sent to stop them and order them to return to the lines laid down by the generals in command, who did not wish the Germans to receive so severe punishment at one time. One detachment of Americans caught in the woods by the enemy refused to surrender and fought it out, and a corporal and some thirteen men took several hundred prisoners into camp. The Germans called it unfair warfare. Of course it was. The Americans were not stabbing and killing women and children and old men, or outraging young girls. They were fighting like men, for the cause of liberty for the world.

The German writers state in various articles that the "hair-drilled" American levies of conscripted troops will run when they meet the German army. True. They have demonstrated the fact that they will run, but after the Germans—out from them—and the enlisted men complain to their officers that they are hampered with equipment for those hundred dashes against the foe they had so ready to turn their backs to the advancing hosts. There are a million and more men American soldiers now in France, and they will give a good account of themselves. Rock county has furnished its share and is ready to supply more, and on the ships that take these boys across you will find more Rock county boys ready and willing to do their share as sailors of Uncle Sam's vast naval forces he is training.

THE STATE GUARD.

War brings about strange conditions for securing the peace and safety of various communities when the organized trained militia is called into federal service and the regular army forces are not available. Wisconsin has organized a State Guard to take the place of the Wisconsin National Guard now in service in Europe. This guard is composed of young men between the age of eighteen and twenty-one, and above the age of thirty-one and under forty-five, with four exceptions. Two regiments of this battle-trained and armed and equipped guard have already gone through one week of intensive training at the state guard reservation, Cheno Douglas, and a third regiment is now drilling there, with a fourth to follow.

These men have given of their time, without any pay, their car fare and meals along being furnished, that they might be given instruction how to be of use if called upon in an emergency. They come from all walks of life and have honestly and earnestly conducted themselves as soldiers. They wear the uniform of the Wisconsin State Guard and as soldiers of the state they demand respect from the rest of the citizens who are not actually in war service.

Stirring and instigators against the guard as a whole, or individual members, is of as grave import as a stir against the federal government, for these men are sworn citizen-soldiers of the state and the nation for the duration of the present emergency. Some employers have seen fit to place obstacles in the way of their employees joining this organization, and others have cut off the wages of men who attended the state camp. An answer to this is the following citation from Pacific might give these narrow-minded individuals a new insight into what and how the state guard is considered by thinking men and not "lip loyalists."

When the seventh regiment was called into state camp two weeks ago, the management of the Mitchell Manufacturing company of Racine called all the members of the state guard in their employ into their office and asked them if they intended to attend the state camp. Upon being told they had so planned, the management informed them that if they had not done so they could have lost their employ and that every man must attend, and that on the Saturday of their return from camp they should report for their regular weekly wage and go to work the following Monday as usual. That was not "lip" loyalty, but true loyalty, and the men are better employees for the action of their employer.

Yet here in Janesville cases have

been reported where employers reduced employees' wages who belonged to the state guard, not only did not pay them for their week's drill in camp, but scoffed and laughed at the guard as a whole. Of others who boasted they could "lick the whole state guard," and sneered openly at the organization and the members. Yet these men would pose as patriots and chant loud praises of their individual virtues in various patriotic acts as a proof of their value to the community. These men are "lip" patriots. Beware of them! Watch them pose on the next public occasion offered.

The members of the Wisconsin State Guard who give their time from business, who turn out for the purpose of acting as escorts for the departing soldiers chosen under the conscription, help protect the crowds and maintain discipline at the depots, as the troop trains pull out, do not do so far the purpose of show or pose, but because it is part of their duty as soldiers of the state, and they demand and will insist upon respect from the citizens not in service—not slurs and insinuations.

General King, U. S. A., paid the eighth regiment of Infantry of the W. S. G., of which Company G of Janesville and Company F of Beloit are members, a high compliment for their soldierly conduct and efficiency in the discipline and school of the soldier. He meant what he said and the laymen should pay heed and forget to sneer and laugh at the men who compose those organizations that are created to act as a preventative against internal disorders during the period of the war when our actual fighting men are seeing service across the water.

**THE BLIND PIGGERS.**  
Janesville has had a rude awakening to the fact that the so-called "Blind Pigs" where liquor has been dispensed without a license, after hours and on Sunday to soldiers or civilians alike, for so long, have been receiving the attention of the federal officials. These evils have been known to exist for many years. Annual raids and collecting of testimony against them only to have them acquitted by jury, have been a mere matter of form and it took the federal government to wake up the city government to the true situation. Now they are awake let them keep awake and go a step further and patrol the wards and "dark spots" of the city other misdeeds before the federal authorities have to take hold again. These "blind-piggers" have cast a slur upon all legitimate liquor dealers business and despite their effort to redeem themselves as an organization by offering a reward for the arrest and conviction of anyone selling or giving liquor to a soldier they are all under suspicion. What action the council will take as regards the liquor of the place of business where the accredited manager is held under ten thousand dollars bonds towards revoking his liquor permit, will be watched with interest. It would appear that this would be the only step they could take if they wish to save the reputation of the city and not appear a tool of some "invisible power" that looks after miscreants through a political pull.

Meanwhile the federal government will look after the "blind-piggers" and the quicker they are sentenced—if guilty—the better it will be. There are some avowed pro-Germans among them and a taste of real good discipline will not go amiss, to say the least.

Several years ago Wisconsin had a future United States senator who made an enviable record in the upper house of congress, who signed an official paper, while mayor of a city in the state, as "Mare of O—" and later a governor who stated, "I seen my duty and I done it." Both made good in later life and both died respected and revered by their fellow men. Both were maligned and ridiculed, and yet they played their part. These are critical times and pre-war declarations and pre-war doctrines should not overbalance present activity and preparation for the future. Wisconsin today stands first in the states of the union in war activity and it will continue to do so. It is seen that this would be the only step they could take if they wish to save the reputation of the city and not appear a tool of some "invisible power" that looks after miscreants through a political pull.

Footville, July 22.—Elton Day, who has been enjoying a short vacation at the home of his parents, Mr. and Mrs. Day, left on Saturday for Milwaukee to again resume his duties as engineer on the road.

Mrs. Minnie Barryman spent Saturday at the home of her friend, Mrs. Lloyd Dohs of town of Center.

Mrs. Edson Brown of Center motorized to this place and attended divine service at the Christian church on Sunday evening. She was accompanied by five young lady friends.

Mrs. F. R. Lowry and Mrs. Quimby

who have been spending the past week at Lake Kemonia, returned Saturday evening. Also Mr. and Mrs. Fred Snyder, who also spent a couple of days with them.

Mrs. D. J. Howe and children of Ladysmith, were over Sunday guests of relatives in town.

Miss Annie Plunkett recently returned having enjoyed a pleasant visit with friends in Evansville and Janesville.

Clayton Honeysett of the Great Lakes Naval Training Station was home over Sunday.

Otis Gooch and Floyd Solek are expected to leave on Wednesday to go into training for their service for their country.

No services at the M. E. church on Sunday as Rev. White is absent attending a camp meeting.

Arthur Buck and family motored here from Dayton on Sunday morning and spent the day with relatives.

Quite a number of young people were in Milwaukee on Saturday evening.

Mrs. Triplett, who has been absent for some days, during which time she spent with her sister who was taken to a Chicago hospital for treatment returned during the past week. She reports her sister as being in a poor condition with small prospects of her recovery. Mrs. Triplett's nurse accompanied her home for an indefinite stay.

Harry Langdon and wife were Sunday visitors of friends in town.

Ray Devins, who recently enlisted, spent Sunday at his parental home here.

Now that they are manufacturing ice at the condensary, the girls are enabled to have Sunday off, and they can not get in as many hours each week as they have been doing heretofore.

Everybody come to the young people.

The council took a wise action on contagious hospital proposition, and it is to be hoped they stand pat and the courts confirm their decision. If it is tested, Janesville needs just such a building and needs it badly, and has long needed it, even though adjacent property-owners object.

That the swimming beach is appreciated is evidenced each day. It is properly conducted and decorum observed, yet everyone enjoys themselves. It is one of the hot weather enjoyments of the community.

Eau Claire.—Relatives and friends of Felix Steinmetz, former resident of Eau Claire, were gathered yesterday when he walked into the hospital and greeted them, for they supposed he had been dead for fifteen years, that being the last heard from him. For the last thirty-two years he has been traveling all over the country. He is visiting his sister, Mrs. Christine Garding.

ple's social in Johnson's new barn on Tuesday evening, July 23.

Quite a number from here attended the funeral of the late Mr. Adel, which took place at the home of his son, Adel, on Sunday afternoon.

A large crowd attended the social given on Friday night at the country home of Mr. and Mrs. John Rowland.

The moonlight made the evening an almost ideal one. Games were played on the spacious lawn, which were indulged in by both the young and old.

Charles Stevens, and Mrs. Fred Honeysett did some quite unusual and unique stunts, hoping to be a victor in the race. Brown bread, ginger bread, boiled beans, potato salad, pickles and coffee consisted the menu, which was served at 15¢ the plate.

Every one enjoyed the meeting immensely.

It is a good idea to have a party of such young people for the old as well as for the young, where all might meet together and have a good time without "dressing up."

It is said that Will Canary, who has been in the bank for the past few years, has enlisted in the quartermaster's division and goes from here to-day to enter service.

Mr. and Mrs. Will Grenawalt entered company from out of town over Sunday.

Miss Ella Rote, having finished her school at Whitewater, will remain at home for a season.

## EXAMINATIONS OF NEW REGISTRANTS TO BEGIN FRIDAY

One Hundred and Thirteen Men Will Be Examined—Lowering of Requirements Will Admit 2,000 Rejected Men in Wisconsin.

All men swamped with work connected with the entrainment of the one hundred and fifty men who leave Wednesday and Thursday of this week, the local board is now directed by the provost marshal general to proceed with the physical examinations of the members of the class of 1918. The board has set the coming Friday as the day for the examinations and work will be commenced at nine o'clock that morning.

Figures pertaining to the classification of the new registrants have been completed showing that of the 219 who registered June 5th last, 117 are in the first class. Each of these men has been ordered to report for physical examination Friday.

With the purpose of reducing rejects of men inducted into military service by local boards, the governor has issued instructions to guide them in the future. The boards are asked to review immediately the physical examination form of all registrants awaiting induction in order to avoid sending to training camps men whose classifications have been changed by the standards of physical examination.

Among other things the boards are instructed:

Not to induct men under sixty inches in height.

Not to induct men with any indication of hernia.

Not to induct men now suffering with internal derangement of the knee joint.

Not to induct men with enlarged veins.

It will be noted that the new regulations place the minimum height at five feet instead of 58 inches and the minimum weight has been changed to 110 pounds instead of 68. Until one month ago the minimum height was 60 inches and then it was raised to 62 inches, disqualifying about 2,000 registrants in Wisconsin.

The new physical requirements as received in a telegram by Adjutant Holway Saturday will admit to service these 2,000 men who had been previously rejected.

## SEVEN WILL LEAVE WEDNESDAY, JULY 24 FOR GEORGIAN CAMP

Local Board Sends Contingent of Selects to Fort Oglethorpe, Georgia at Eleven O'Clock A. M.

Seven selects are scheduled to enter for Fort Oglethorpe, Georgia, Wednesday morning at eleven o'clock. They will go to Chicago over the C. M. & St. Louis road. The local board has notified the seven men listed to make up the quota but announces that any member of the class of 1918, who desires to volunteer and who wants to go to the southern camp, will be included in the contingent.

## SOLDIER CLUB HAS BEEN OPENED HERE

A very convenient and cosy club room for the use of soldiers visiting in the city was fitted up this past week by the Sunday Hospitality committee. The location selected opposite the park and near the terminus of the interurban makes the situation ideal. Comfortable and attractive furniture has been donated for use by ladies interested in the project. Rugs, comfortable easy chairs and convenient writing tables help to make a pleasant interior.

Father Willmann has been especially interested in the Soldier's club and was in attendance Saturday to make it a success at home. The room was the boys' set up at home. The room was kept open on Saturday including the evenings and on Sunday afternoon. There were fewer soldiers in town than usual this week on account of an extensive inspection being given at Camp Grant. Those who were in the city expressed themselves much pleased with the cordial welcome given them here. Only a few soldiers were in the city long enough to be entertained but they thoroughly enjoyed the Sunday dinners and the glimpse of home life accorded to them in that way.

The people of Janesville have evinced wonderful interest in the idea, and many more individuals have been sent in that could be filled with soldiers. Spindly co-operation has been given by the committee in every way, in their efforts in providing a home like a Sunday outing for the soldier boys and that they are truly grateful goes without saying.

## BOARD OF DIRECTORS WILL MEET TONIGHT

Executive Body of Janesville Chamber of Commerce Will Meet at Headquarters This Evening, at Eight O'clock.

## EXCELLENT PROGRAMS GREATLY APPRECIATED

WHOLESALE ENTERTAINMENTS  
OF LINCOLN CHAUTAUQUA  
MOST PLEASING TO AUD-  
IENCES.

### TALK THIS EVENING

Clifford G. Roe of Chicago will deliver Lecture on Subject "Women And The War."

Ideal weather, a pleasant site and an appreciative audience helped to make an auspicious opening for the Chautauqua season which began in Janesville on Saturday afternoon.

The Graven Musical company proved to be agreeable entertainers, the four young ladies and their father being able to lay on a great variety of musical instruments. They formed a quartet of saxophones, of concertinas, and a mixed quartet of violin, cornet and clariinet, and zepophone, with a piano accompaniment. The music rendered varied from popular melodies to classical selections, but always very well interpreted.

In theory, who gave the address of the evening, spoke on his topic, "Under the Stars," and in this he meant the protection of the stars in the flag. It was a splendid patriotic effort, which he made vivid by his life-like descriptions of people met with in different parts of the country, during his travels. The fervor was well expressed by him that he might live long enough to see the marvelous changes soon to be accomplished after the war.

Also during the afternoon program, Lieutenant Beers, vice president of the Lincoln Chautauqua, and now serving as chaplain at Fort Sheridan, gave a talk along the line of education during the time of the war. He emphasized the importance of keeping up the standards of community life, and being ready for reconstruction work after the war.

A clever descriptive piece, "On the Mississippi River," was given by the Graven's during the afternoon, as well as "Heart Throbs," "Splitting Kindling," and quartet, "The Soldiers are Marching By."

The Sunday program for the evening was especially arranged to take two of the union service planned for the churches at that time. The address of Dr. C. C. Mitchell was a powerful sermon, on the topic "The Millennium of Uz, or the Story of an Ash Heap." This was a dramatic rendering of the story of the life of Job as told in the Bible. The speaker described the life history as being the greatest lesson in the ages. He gave a vivid word picture of the prosperous business man, us Job was at the beginning of the story, with a large bank account, immense herds and stocks and boasting family.

In an instant of time all these assets were swept away and the moral of the man was tested. His pride of heaven and his pride of earth were shown by this temptation of Satan, so the speaker, 1st, the world would not have known the baseness of the man, without this trouble; 2nd, the sweet patience of his character was developed by what he went through; 3rd, the career of the man, he clearly showed the real number within him. The speaker illustrated his point by asking, "How many men, staying in the Whistling chorus, staying in an ash heap?" Also he said this scene showed the first lesson in the arithmetic of life, how big we are, when they take the stuff away."

The rest of the life of Job, the speaker showed, was lived in the fiery furnace of affliction and suffering. But though it all, he was able to maintain his faith, and give a triumphant answer to the question, "If a man die, shall he live again?" by responding, "I know that my redeemer liveth."

In the afternoon program, Dr. Mitchell gave a patriotic address on "The Song," in which he showed the importance of the little country in every way as shown by the war. The nation was touched upon, its bay, rivers and harbors. The man power as represented by the large army raised so quickly, and the efficient navy, the records of the railroads in hauling stuff, and the efficiency displayed in building cantonments. "Find some one here in the world to a frazzle, on every getting, and on most spending, was a terse expression used by Dr. Mitchell. He closed by giving a beautiful simile of the angels of religion knowledge, and of law, being sent down to earth, but it remained for "The son of man and of God, to bring sunlight into the world."

Miss Jessie Roberts also gave several programs during the afternoon, one of them being a fairy story of the "Golden Garden," woven about the life of the Christ Child. She also gave a stirring plea for recruits for the war, in a speech supposed to have been given on the street by a young girl, called "The Slacker."

A real treat in music was given by Madam Grace Hendry, who gave a program which she has presented to camps and cotillions during this past winter. She has travelled chiefly through the south, and sung for the boys in the camps in 1917 concert programs. Her selections embraced mostly American songs, two of these, "The Lesson," and "Laurels of

### FRANCIS HENDRY

Mr. Hendry is one of the best-known entertainers on the Lyceum platforms through his connection with years with Famous Lyric Glee club, whose success

The success of the Lyres in which Mr. Hendry had so prominent a part was shown in their long Lyceum season, and emphasized by their engagement for two successive years by the United States government to give concerts in the Panama Canal Zone. Mr. Hendry's success as an impersonator and a musical entertainer was so marked that many of his best friends urged him to sever his connection with the club, although (retaining the management)—to give his entire time to individual programs. Critics classed Mr. Hendry as one of the best in his line.

He is assisted by Mr. J. Marshall Adams, pianist of marked ability.

PETEY DINK—IT'S TOO BAD THERE WASN'T ANYONE AROUND TO TIME HIM.

Not much more than an hour before the Zeppe came, we had been sitting in a room at the house of the local military commandant, right under a big glass-domed skylight. This house was now a very pretty ruin, and it was just as well that we left when we did. You could not even find a splinter of the big round table. The next time I sit under a glass skylight in Dixmude, I want a lad with a live eye for Zeppes on guard outside.

Something about the branch head-quarters ruins made us think of breakfast, when we had forgotten, so back to the hotel. Then we started back to our lines. We were ordered to keep to the main road all the way back, or we would be shot on sight, and to report to headquarters immediately on our return. I thought if the sight of me was so distasteful to anybody, I would not take the chance of offending, being anxious to be polite in such cases. So we stuck to the main road.

Fritz did not give us any trouble and we were back by five, with all hands out to greet us when we have in sight, and a regular prodigious sun welcome on tap, for we were later than they had expected us, and they had made up their minds that some accident had happened.

While I was around Dixmude, I saw many living men and women and children who had been mutilated by the Germans, but most of them were women and children. Almost every one of the mutilated men was too old for military service. The others had been killed.

But the Belgians were not the only ones who had suffered from German *kultur*. Many French wounded were tortured by the Huns, and we were constantly finding the mutilated bodies

go over. Our officers always led us, but I have never seen a German officer lead a charge. They always were behind their men, driving instead of leading. I do not believe they are as brave as they are said to be.

Well, we went over this time, and

Eau Claire—Nearly one thousand members of St. Patrick's congregation gathered at the auditorium of the school to bid farewell to Father G. M. Dowd, for the past six years assistant to Father A. B. C. Dunne; who left for Camp Lee, Va., where he has been assigned as army chaplain, having just received a lieutenant's commission. Prominent men addressed the meeting and at its close a purse of \$812.50 was presented the priest.

We went over this time, and

as an example to the living.

The Germans had absolutely no respect whatever for the Red Cross. For instance, they captured a wagon loaded with forty French wounded, and shot every one of them. I saw the dead bodies.

When the Germans came to Dixmude they got all the men and women and children and made them march before them with their hands in the air. Those who did not were knocked down. After a while some of them saw what they were going to get, and began as game sports as I ever heard of, tried to fight. They were finished off at once, of course.

The former burgomaster had been shot and finished off with an ax, though he had not resisted, because he wanted to save the lives of his citizens. They told me of one case, in Dixmude, where a man came out of his house, trying to carry his father, a man of eighty, to the square, where they were ordered to report. The old man could not raise his hands, so they dragged his son away from him, knocked the old man in the head with an ax, and left him there to die. Those who were spared were made to dig the graves for the others.

There was a doctor there in Dixmude, who certainly deserves a military cross if any man ever did. He was called from his house by the Germans at 5:30 one morning. He left his wife, who had had a baby two days before, in the house. He was taken to the square, lined up against a wall with three other big men of the town.

Then he saw his wife and baby being carried to the square on a mattress by four Germans. He begged to be allowed to kiss his wife good-by, and they granted him permission. As he stepped away, there was a rattle and the other men went West. They shot him, too, but though he was riddled with bullets he lived, somehow, and begged the German officer to let him accompany his wife to the prison where they were taking her. This was granted too, but on the way, they heard the sound of firing. The soldiers yelled, "Die Franzosen!" and dropped the mattress and ran. But it was only then that we saw this happen to four men, but this was the only one in France.

About seven o'clock, we received reinforcements, and poured fresh troops over and retook the trench. No sooner had we entered it, however, than the Germans turned their artillery on us, not even waiting for their own troops to retire safely. They killed numbers of their own men in this way. But the fire was so heavy that, when they counter-attacked, we had to retire again, and this time they kept after us and drove us beyond the trench we had originally occupied.

We left them there, with our artillery taking care of them, and our machine guns trying to enfilade them, and moved to the right. There was a bunch of trees there, about like a small woods, and as we passed the Germans concealed in it opened fire on us, and we retired to some reserve trenches. We were pretty much scattered by this time, and badly cut up. We reformed there, and were joined by other of our troops, in small groups—what was left of squads and platoons and singly. Our captain had got it a fifth time, meanwhile, but he would not leave us, as he was the ranking officer. He had a scalp wound, but the others were in his arms and shoulders. He could not move his hands at all.

But he led our charge when we ran for the woods. We carried some machine guns with us as we went, and the gunners would run a piece, set up, fire while we opened up for them, and run on again. Some troops came out of a trench still farther to the right and helped us, and we drove the Germans out of the woods and occupied it ourselves.

From there, we had the Germans in our old trench almost directly from the rear, and we simply cleaned them out. I think all the vows were kept that day, or else the men who made them died first.

I was shot through the thigh some time or other after the captain got back. It felt just like a needle-prick at first, and then for a while my leg was numb. A couple of hours after we took our trench back, I started out for the rear and hospital. The wound had been hurting for some time. They carried the captain out on a stretcher about the same time, but he died on the way from loss of blood. Fresh troops came up to relieve us, but our men refused to go, and though officially they were not there in the trench, they stayed until they took the captain away. Then, back to billets—not bullets, this time. I believe that we received an army citation for that piece of work, but I do not know, as I was in the hospital for a short time afterward. I do not remember much about going to the hospital except that the ambulance made an awful racket going over the stone-paved streets of Etaples, and that the bearer who picked up one end of my stretcher, had eyes like dead fish floating on water; also, that there were some civilians standing around the entrance as we were being carried in.

Bid Farewell.

Prominent men addressed the meeting and at its close a purse of \$812.50 was presented the priest.

We went over this time, and

the machine guns were certainly going strong. We were pretty sore about the chaplain and the Swiss and all that, and we put up an awful fight, but we could not make it and had to come back. Only one company reached the Boche trenches and not a man of it came back who had not been wounded on the way and did not reach the trench. They were just wiped out.

The captain was missing, too. We thought he was done for, but about two o'clock in the morning, he came back. He simply fell over into the trench, all in. He had been wounded four times, and had lain in a shell crater full of water for several hours. He would not go back for treatment then, and when daylight came, it was too late, because we were practically cut off by artillery fire behind the front line trenches.

When daylight came, the artillery fire opened up right on us, and the Germans had advanced their lines into some trenches formerly held by us and hardly forty-five yards away. We received bombs and shells right in our faces. A Tunisian in our company got crazy, and ran back over the parados. He ran a few yards, then stopped and looked back at us. I think he was coming to his senses, and would have started back to us. Then the spot where he had been was empty, and a second later his body from the chest down fell not three yards from the parados. I do not know where the top part went. That same shell cut a groove in the low hilltop before it exploded. He had been hit by a big shell, and absolutely cut in two. I have seen this happen to four men, but this was the only one in France.
